## Curriculum Area: Music

### Intent

*At Knights Templar Community church School, we value music because it is a most powerful and unique form of communication that can change and impact the way learners feel, think and act.*

*Music is an emotional experience which means that all learners, whatever their need, can take part and be challenged. Exposing learners to music during early development helps them to learn the sounds and meanings of words. Dancing to music helps learners build motor skills while allowing them to practice self-expression. We believe that teaching music helps the body and the mind work together.*

*We promote exploring music from other cultures and immersing the learner in new experiences.*

*We believe that every learner should have the opportunity to develop their musical potential and we aim to nurture and encourage musical development across the school. We ensure that all the learners perform in front of an audience each year at the school Christmas Concert, Harvest Festival and End of Year performances, in addition to extra-curricular activities provided.*

*Our aim is to inspire pupils to develop a love music and nurture their talents as musicians.*

#### *Skills to promote*

- performing*
- composing*
- appraising*
- listening*

### Implementation

*Our whole curriculum is shaped by our school vision, which aims to enable all learners, regardless of background, ability or additional needs to flourish and become the very best version of themselves they can possibly be.*

We teach the National Curriculum, supported by a clear skills and knowledge progression. This ensures that skills and knowledge are built on year by year and sequenced appropriately to maximise learning for all children. We also follow the Sing-up program to ensure that music is taught thoroughly across the year. This is also used in Assembly to support worship songs.

During the year, all learners will have the opportunity to develop their understanding, skills and techniques in music. We are very proud of our musical achievements at Knights Templar Community Church School including making our own CD and having children go on to be members of the West Somerset Brass Band.

We welcome parents to our annual music concert and productions throughout the year to share the musical ability we have at our school.

Our peripatetic teachers who come into school to teach music lessons are giving opportunities for learners to learn and develop their skills from an experienced specialist teacher. We also offer a variety of extra-curricular activities including Ukulele and Guitar.

#### Assessment

The assessment for learning agenda within each class generates the evidence that then informs the overall teaching assessments which are recorded on SIMs. Teacher assessments are formed at the end of each unit of work, when the SIMs mark sheets are updated. Where learners are not developmentally at age related expectation, interventions linked to gross motor and fine motor skills will be implemented.

### Impact

By the end of their time at Knights Templar, our young musicians will be:

- **Confident individuals** who have the ability to give precise written and verbal explanations, using musical terminology effectively, accurately and appropriately and who have good awareness and appreciation of different musical traditions and genres.
- **Successful learners** who have a rapidly widened repertoire which they will be able to use to create original, imaginative, fluent and distinctive composing and performance works and have a musical understanding underpinned by high levels of aural perception, internalisation and knowledge of music, including high or rapidly developing levels of technical expertise.
- **Responsible citizens** who have an excellent understanding of how musical provenance - the historical, social and cultural origins of music - contributes to the diversity of musical styles with a passion for and commitment to a diverse range of musical activities.
